ANSI Z540-1/NAVSEA Accredited Calibration

Master Distributor for  
**Weksler Instruments**  
Thermometers  
(Mil-Spec)

Sole Stocking Distributor  
**AMETEK / PMT**  
Pressure Transducers  
(Mil-Spec)

## **Program Material**

The following data base has been assembled to assist your planning and estimating efforts as they pertain to various instrumentation costs and availability. This data base has been tailored to your specific requirements and its access is limited to those entities that possess the appropriate credentials to "Log On". The inventory data is updated on a recurring basis and should be considered *real time*. Pricing is established by separate agreement and will not change without prior negotiation.

Program Material set-aside will be established based on projected requirements and usage data. The primary vehicle that will be used to develop this set-aside inventory is your Request for Quote (RFQ) input. Sufficient data must be presented at time of request to identify end-use application and specific contract or project. Our product representatives are standing-by to assist.

## **Points of Contact**

For **product pricing** or Program requirements: **Bill Marcum**, President

For **WEKSLER** pressure / temperature products: **Charlie Reimold**  
(More than 10,000 instruments in stock - MIL-SPEC / HI-SHOCK)

For **A & M INSTRUMENTS** electrical indicating products: **Bob Kazarian**  
(More than 500 instruments in stock - MIL-SPEC / RUGGEDIZED)

For **AMETEK / PMT** pressure transducers: **Jack Davis**  
(More than 250 instruments in stock - MIL-SPEC / QPL)

For "data base" updates, corrections or questions: Jack Davis
